

# Is Your City Just Beginning the Smart City Journey?

Have you completed several Smart City and IoT projects? Integrated Network Concepts can help you no matter where you are at in your Smart City Initiatives.

INC offers the only Smart City Readiness Assessment on the market that assesses city assets and infrastructure, as well as human talent.

Know the problem or business case you are trying to solve, and we will design & engineer the right solutions with multiple options to choose from.

Looking to understand new smart technology and IoT solutions or do you want a competitive alternative to a proposed solution? INC offers valuable training and consultation that assist Cities before investing funds.

Smart Decision Making > Smart Technology: INC with Certified Engineers & Lean Six Sigma Black Belts coach clients on Smart Decision Making and Why It's More Valuable Than the Smart Technology or Network Infrastructure a City Purchases.
